

Shreevatsa G Uppalli

shreevatsag.is23@bmsce.ac.in | +91-9945660672

EDUCATION

VISVESVARAYA TECHNOLOGICAL UNIVERSITY

BE IN INFORMATION SCIENCE

2027 | Belgaum

B M S COLLEGE OF ENGINEERING | BENGALURU

Current C.G.P.A: 8.95/10

P R N AMRATHA BHARATHI P U COLLEGE

Grad. March 2023 | Hebri, India

Percentage in 12: 92.3

HONGIRANA SCHOOL OF EX- CELLENCE

Grad. March 2021 | Sagara, India

Percentage in 10: 92.8

SKILLS

FUNCTIONAL

- Problem Solving • Critical Thinking
- Good listener

PROGRAMMING

Languages:

- C • C++ • Java • Python

Database:

- NoSQL • MySQL

Concepts:

- Operating Systems
- Computer Networks
- Machine Learning
- Object Oriented Programming

Other:

- Solved 500+ DSA problems in Leetcode

PROJECT

DEEFAKE DETECTION (PYTHON · PYTORCH · OPENCV · FFMPEG · SCIKIT-LEARN)

- Built an end-to-end deepfake detection system using EfficientNet-B2 (NoisyStudent) and YOLOv10L-Face for frame-level binary classification of real vs. manipulated facial videos, achieving an AUC of 0.9503 on the FaceForensics++ dataset.

LIVE EMOTION DETECTION USING AI (PYTHON, FAST API, REACT)

- Developed a full-stack AI application for real-time speech emotion recognition by fine-tuning a Wav2Vec2 transformer model on the RAVDESS dataset. Built a FastAPI backend for inference and a React (Vite) frontend for browser-based audio recording, achieving end-to-end voice emotion classification with confidence scores

HEADING AND TITLE EXTRACTION FROM PDF (PYTHON, PYMUPDF, DOCKER)

- Developed a Dockerized Python tool to automatically extract titles and hierarchical headings (H1–H3) from PDFs using font-based heuristics and layout analysis.

EASY TRADE (JAVA, SPRING BOOT, JWT, REACT, POSTGRESQL)

- Easy Trade is a full-stack marketplace platform built with Spring Boot and React/TypeScript, featuring JWT authentication, listing management, search and categories, seller chat, user profiles, and a modern dark glassmorphism UI.

EXTRA-CURRICULAR ACTIVITIES

- Playing Badminton
- Solving Rubiks Cube
